Safer Internet Day: Parent/Carers' Talk
Tuesday, February 8th

Dear Parents/Carers

As part of our efforts to support Safer Internet Day we are working with Cheshire & Wirral Computing Hub to offer a talk for parents/carers.

Steve Woods (Computing Hub lead and CEOP Ambassador) will present on staying safe online – Steve will address questions from parents, look at what is trending and explore the hidden dangers in gaming and social media.

This talk will be presented as a live stream, and will not be recorded. Cameras, chat and mic access will be disabled for all participants to ensure privacy. During the event a form will be distributed for any questions. These will be answered in the form of a written response to the school.

Date and Time
Tuesday, February 8th: 6:00 – 7:00pm or 7:00 – 8:00pm (join at the most convenient time for you – the same talk will be presented twice)

Joining the Microsoft Teams meeting

We hope that you find this a useful opportunity to increase awareness of online safety issues.

Kind regards,

Duncan Rose
Headteacher
